

MAILwaukee Mailing Inc.

Top Side, Bottom Side, Side-To-Side, Any Side Tabbing!

It's a little under a year in the making, but we are extremely pleased to offer you the only tabber in the world that can handle all USPS tabbing automation regulations (current & proposed) in **ONE PASS with ONE TABBER!**

Introducing the brand new **T-650** Multi-Side Tabber from RENA Systems!

This incredible tabber can apply tabs to folded self mailers, double postcards, booklets (yes, those too), cd/dvd cases & more. It can apply tabs to opposite sides of a mailer or booklet at the same time. It can even place a tab on the top edge while simultaneously applying multiple tabs to the side edge – a feat never before accomplished by a single tabletop unit! Sorry for all the exclamations, but this is a very exciting product and one that customers have been looking for.

Key Points:

- 1.5" Tab Capable
- Side-To-Side Tabber
- Amazing \$16,495 Price!
- Speeds Up To 25,000/hr
- Apply Stamps Too!
- Solid, Durable Construction

RENA seeks to continuously to improve the products you can offer to it's customers, striving to have the best solution to every need in addressing.
