

HASLER'S ONLINE
SHIPPING SOLUTION

WEB-BASED SHIPPING SOFTWARE ShipAdvisor™

Hasler has combined cutting edge technology with the convenience of the Internet to bring you an innovative way to simplify your shipping experience. Through agreements with UPS and the United State Postal Service® (USPS®), Hasler's ShipAdvisor offers a multi-carrier shipping solution for smaller and mid-size businesses. This very affordable, web-based shipping tool allows you to quickly and efficiently shop and compare carrier rates and shipping services from UPS and the USPS.

Key Benefits of ShipAdvisor:

- Find Best Service – save money by selecting the best service based on destination and delivery time.
- Automatic entry – no more manual writing of airway bills and shipping labels.
- Automatic rate calculation – saves time by displaying your rate on the spot.
- Reduced errors – confirms addresses before processing shipments.
- No paper filing – all information stored for easy tracking, reporting and charge back.
- Convenient – stores addresses for all your repeat contacts.

Shipping made easy

Take Control of Mailing Costs

ShipAdvisor provides a highly efficient way for your business to send, track and confirm delivery of your mail and packages without having to use a dedicated PC. Designed to get you up and running in minutes, this web-based application allows

Accounting and Reporting

ShipAdvisor consolidates postage and express shipping charges into a single report giving you access to a complete shipping history of all mailings. You can also efficiently track and charge back UPS and USPS shipping expenses by department, customer and cost center.

Accuracy = Cost Savings

With ShipAdvisor, you're just a click away from tracking the status of every delivery. ShipAdvisor helps reduce returned or delayed deliveries by checking and automatically correcting addresses. This eliminates most address correction fees from your carriers – some as much as \$10 per shipment. Plus, you can automatically send e-mail confirmations and tracking numbers to your recipients, meeting employee and customer expectations for instant access to key shipping data. And with ShipAdvisor, there's no need for handwritten records and logs, which often lead to costly mistakes and wasting valuable mailroom time.

There is a new name in the shipping industry – ShipAdvisor, from Hasler.

you to view all of your UPS and USPS® shipping options at once. ShipAdvisor can then suggest your best shipping option based upon destination and delivery time. Once a shipping method and service is selected, you can print postage or carrier-compliant barcode labels directly from your desktop printer or postage meter. With ShipAdvisor, users gain complete control over how their packages and express letters are sent.

ShipAdvisor is compatible with the following Hasler mailing systems: WJ65, WJ95, WJ110 and the WJ150.
